

ViaVideo Installation Instructions

I. Turn “OFF” Auto Answer – (VERY IMPORTANT)

- a. Upon completion of installation, make ABSOLUTELY sure that **Auto Answer** is **OFF**

II. Connecting the Via Video Camera to the PC

- a. The Camera should be plugged into the Blue “**Line In**” jack
- b. If the user is not using speakers, plug directly into the “Headset” jack

III. Camera Placement

- a. The Camera should be placed at **EYE LEVEL** or at least a height of 12 inches

IV. Internet Browser

- a. Make sure the default user’s browser is set to **Internet Explorer**. This will allow the user to utilize the “Snapshot” feature.
